& CONSTRUCTION EQUIPMENT PTY LTD

EAT MY DUST GROUT BOWL DUST MITIGATION SYSTEM

- ✓ Superior dust control - minimises risk to personnel, mess and product wastage
- ✓ Ergonomically improved – minimal bend and twist for operator
- ✓ Adapts to any make of 150 litre bowl unit

'EAT MY DUST' GROUT BOWL DUST MITIGATION SYSTEM

Overview: The patented innovative plant is a versatile system for the mitigation of propagated dust within grout mixing functions, ideally designed for consolidation and strata support encapsulation activities. VentSec is the OEM of the plant. Quarry Mining & Construction Equipment (Quarry Mining) is the plant and parts supplier and conducts after sales service and repairs.

Functional Design: The plant can be attached to all grout bowl and pumping arrangements to mitigate dust without an impact on functionality. The plant is pneumatically driven with inclusions of a bag entry guide, dust mitigation system, major cover plate and FRAS rated hosing. Guarding is provided over all moving parts to prevent the accidental incursion of body parts. Etched / engraved operator controls.

Specifications:

TARE WEIGHT INSTALLED	22 kg
GROSS WEIGHT INSTALLED	26 kg
LENGTH	630 mm
WIDTH	630 mm
HEIGHT	210 mm

Performance: Operated and tested on grout products and equipment utilised in underground coal mining. Dust mitigation rate 0.5 m³/sec. Noise levels below 42dBA. Air consumption 0.4m³/min at maximum 140psi. Refer to design specification or plant safety for more details.

- ✓ **Innovation** – Protecting personnel from harmful airborne contaminants when decanting grouts into pumping facilities.
- ✓ **Design** – Australian designed, combined with quality Australian engineering to meet underground coal requirements.
- ✓ **Robust** – Produced with high quality materials designed for the mining and construction industries.
- ✓ **Service** – Full parts list and back-up service and repairs available from Quarry Mining.
- ✓ **Documentation** – A comprehensive plant safety file is available inclusive of operational and test reporting documentation.
- ✓ **Support** – For more information or a demonstration, contact your Quarry Mining Technical Representative.
